A Chapter of Accidents.

While Louis Leinweber and a party of friends were hunting Friday evening of last week Fritz Graff accidentally shot him in the left hip near the joint with a twenty-two target. The ball penetrated to the bone but did not break it, and, although the bullet could not be removed, it is thought that the wound will not prove any way serious.

The gasoline in a gasoline sad iron caught fire while Mrs. Chas. Metzger was ironing Saturday afternoon, the nut that closes the tank was blown off and the flames from the gasoline threatened to spread to the building. A fire alarm was turned in and the fire company and many citizens responded at once. Fortunately, Mrs. Metzger had set the iron on the stove just before the explosion occurred and the gasoline burned itself out without catching any thing else and the fire was out before the fire company could reach the scene. The only damage done was the scorching of a blanket with which Mrs. Metzger had attempted to smother the flames.

Mrs. J. W. Miller had the misfortune to fall Monday night and dislocate her right wrist and fracture one of the bones. She was given surgical attention at once and is improving as fast as could be expected.

A gasoline explosion at Hodge's short order restaurant Tuesday afternoon scorched Roland Moore's hands, arms, and face inflicting painful but not serious burns. He is able to be out again.

While playing foot-ball Thursday at noon at the school house, Sterling Fly stepped into a hole and broke the small bone of his left leg near the ankle. He was given surgical attention at once and is improving as fast as can be expected.

Died.

Mrs. H. S. Kirby died about 7 o'clock Friday morning, October 10, 1913, after a few days illness. She will be buried in the new cemetery at 3 o'clock p. m. today.

Mrs. Kirby is a native Texan, having been born seventy-five years ago in East Texas. She was married nearly sixty years ago to Capt. H. S. Kirby and came with him to Hondo from Tyler County in 1899, where they have since resided. Capt. and Mrs. Kirby have never had any children.

Obituary will appear in our next issue.

Good Roads Meeting.

Judge H. E. Haass has called a Good Roads and Automobile Club meeting at Biry for Monday, October 20th.

A mass meeting will be held first at which the matter of good roads will be considered. Mr. D. E. Colp has sent word that he will address this meeting and Hon. Homer D. Wade has also been invited. There will probably be other speakers.

After the road meeting the Automobile Club will hold a business meeting. A large attendance of citizens is expected.

Died.

Mrs. H. G. Hardt died at her home on the Tehuacana Monday night, Oct. 6, 1913, after a lingering illness following an attack some months ago of typhoid fever. Her remains were buried at New Fountain Tuesday, Rev. J. F. Koch performing the last sad rites.

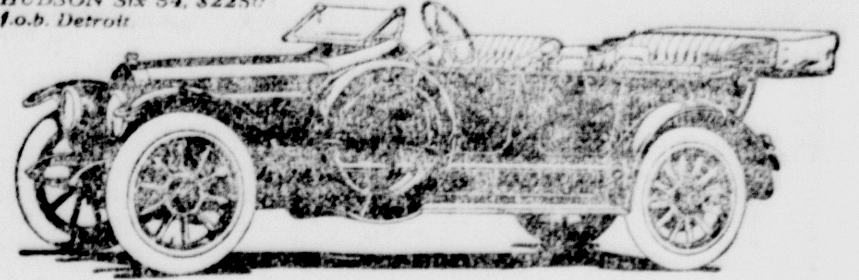

The deceased is survived by her husband and eight children. A good woman has gone to her reward.

The Anvil Herald extends its sympathy to the bereaved ones.

Disappearing Seats Left-Side Drive Four Forward Speeds

The Hudson Rides Like Constant Coasting

At any speed—uphill or down—rough roads or smooth—a HUDSON Six rides like constant coasting.

It is not marvelous spring adjustment, or unusual balance—though these things help. It is the smoothness of the six-cylinder motor.

The delight of the vibrationless and gliding ride you get in coasting down a long, smooth hill is ever present in the HUDSON Six 54.

It's like flying. Only in six-cylinder cars of proper design and balance do you get such riding qualities.

It's needless to say here a word about HUDSONS mechanically. Every motorist concedes their superiority of design.

Most Beautiful Car Ever Built

THE HUDSON Six 54 is pronounced by many the most beautiful car ever built. Certainly with these qualities you should at least ride in one.

Drive it if you drive—compare its beauty with any car at any price. It is built like a steel Pullman for sturdiness and safety.

Its streamline body comfortably seats four, five, six or seven passengers.

It has left-side drive, right-hand (center) control, entrance from either side, four-speed transmission. It is electrically cranked and electrically lighted by the new *fast* type Delco System, patented. It has 135-inch wheel-base, 36 x 4 1/4 inch tires, Pantasote top, quickly adjusted curtains permanently carried in top, magnetic jeweled speedometer and many other attractive features.

Come see for yourself the true streamline body and experience the smoothness and flexibility of a real six-cylinder car.

Water In The Medina Dam.

Water in the lake at the Medina Dam is ninety-six feet high, according to Clinton H. Kearney, who returned last night from the dam. The water has reached such a stage that it is possible now to start operations and use the supply for irrigation purposes. As a result F. S. Pierson has been notified in London and it understood the company will soon irrigate the first unit of 15,000 acres of land.

In the last twenty-four hours the rise in the lake has been seven-tenths of an inch. During the heavy rainfall of last Thursday the water rose seven feet, while the total rise during the rainy spell of last week was twenty-seven feet.

"The lake is now a beautiful sight," said Mr. Kearney. "Over an area of 1,700 acres the stage is ninety six feet. This is by no means as high as the water can go. In the event of another rain it can accommodate several feet more. In fact, it is 152 feet to the top of the spillway." Sunday's Express.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The Daffodil.

Love went dreaming down the hill,
With the morning in his face;
Crushed the dewey daffodil,
Tore the spider's silver lace.
"Many flowers are fairer still,"
Quoth Love, "than the daffodil."
At the foot he met his fate;
Lingered for an hour, and then,
Knowing sorrow as his mate,
Love went toiling up again.
Stooped upon the sun-parched hill,
Raised a broken daffodil.

YOU CAN'T EAT • APPETITE POOR

Multitudes of people lose their appetite. Simply don't care for anything to eat. The dinner bell has no interest to them. They loathe their breakfast. They may nibble a little of this and a little of that, but they do not care for it.

Lunch has lost all of its charms, although they try to eat something. Dinner about the same.

There is something positively wrong, of course, but no disease that can be named. Just out of sorts. That is all.

It is in this kind of a condition that Peruna acts very beneficially. After using Peruna, interest in food is revived. Beginning with a teaspoonful of Peruna before each meal will generally quickly improve the appetite and help the digestion.

Thousands of people can testify to this. Liberated from a slavery that is almost unbearable. The slavery of having no interest in life. All used up. Yet one does not know exactly why. Take Peruna before each meal. Skies will get blue again. Fields will look green once more and life will be pleasant. You will feel that you are good for something and the world is a good place to live in. Peruna will do it. Not as an artificial stimulant. Simply a tonic that stimulates appetite in a natural way.

Those who object to liquid medicines can now obtain Peruna Tablets.

Plaintiffs further represent that the title or claim of the said J. N. Berryman, and the unknown heirs of the said J. N. Berryman, if any, to the above described lands, is by virtue of the patent issued by the State of Texas, to the said J. N. Berryman on July 16, 1852, being patent No. 579, vol. 9.

That the title or claim of defendant W. H. Parsons, and the unknown heirs of W. H. Parsons, is unknown; that the title of defendant, Myra W. Parsons, and the unknown heirs of Myra W. Parsons, if any, is by virtue of a deed from said defendant, W. H. Parsons, to said Myra W. Parsons, dated May 6, 1878, filed for record in Medina County, Texas, on June 27, 1879, and recorded in the deed records of said county in Book A, No. 12, on page 530; that the title or claim of defendant, Jacob Massina, and the unknown heirs of Jacob Massina, is unknown to plaintiffs; that the title or claim of defendant, A. Plaintiffs bring this suit for the purpose of determining the estate, interest or claim, if any, of each and all of the above named defendants, or any person or persons who may claim under them, in and to said lands and premises and that the court may adjudge and decree unto plaintiffs the said land and premises, free from any claim, title or interest of the said defendants, or any of them, and to forever settle by decree of court the title to said lands.

Wherefore, plaintiffs pray that said defendants, the names of part of whom are unknown to plaintiffs, and the residences of all are unknown to plaintiffs, be cited by publication as prescribed by the Statutes of this State, and that

upon final hearing in the case that plaintiffs have judgment of the Court, declaring and adjudicating the title to the above described lands to be in plaintiffs free from any and all claims in favor of said defendants, or any of them, and for such other and further relief, general or special, legal or equitable, to which plaintiffs may be justly entitled to.

German Coffee Cake
Made Without Yeast

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

There is no warm bread quite as appropriate for Sunday morning breakfast as German Coffee Cake, yet it is seldom made by housewives who do not bake their own bread. If K C double raise Baking Powder is used it will be just as good as if raised with yeast and it will have the further advantage of being fresh and warm. Save this recipe and try it next Sunday.

K C German Coffee Cake
Two and one-fourth cups sifted flour;
3 level teaspoonfuls K C Baking Powder;
1 level teaspoonful salt; 2
tablespoonfuls melted butter;
2 tablespoonfuls sugar;
1 egg; milk.

Sift dry ingredients together, beat the egg, add milk and butter to the egg to make one and one-quarter cups; stir all together with inverted spoon to a stiff batter. Turn into biscuit pan and spread even. Brush top lightly with melted butter. Sprinkle sugar and ground cinnamon over the top. Bake in moderate oven.

Dutch Apple Cake or Prune Kuchen can be made with this same batter by covering the top with pared and sliced apples, or cooked prunes with the pits removed, skin sides down. Dredge with sugar and cinnamon the same as for Coffee Cake.

"The Cook's Book" contains 90 just such delicious recipes. You can secure a copy free by sending the colored certificate packed in 25-cent cans of K C Baking Powder to the Jacques Mfg. Co., Chicago, being sure to write your name and address plainly.

AGRICULTURAL LAND FOR SALE! Improved and Unimproved

In placing my holdings on the market, consisting of lands around Charlotte and Jourdanton, both improved and unimproved, I do so with the knowledge that these lands are most favorably situated and offer every convenience to those seeking homes. Within easy reach of every point are modern gins, well equipped schools, commodious churches, good roads lead everywhere, to nearby railroad stations and the best markets in Texas.

This property has not been offered earlier because these very necessary advantages were not to be had, but now they are a reality—nothing is left to speculation or future contingencies. Settlers now have all the advantages that can be found anywhere in a fully developed community without paying the prices that are asked in the older sections. You can have the benefit, for I am offering you the most desirable opportunity in Texas.

These lands are as good as can be had in South Texas; there are no better anywhere. Plenty of water can be obtained on any tract and shallow wells can be located at small cost furnishing an abundance of good water. The soil is fertile, there are no crop failures on these farms and no irrigation is necessary. No section of the state offers a more healthy or delightful climate, winter or summer.

: : VIEWS AND REVIEWS: :

AT the Automobile and Good Roads Meeting to be held a Biry Monday, October 20th, ways and means to secure better roads for Medina County will be discussed and it is possible some plan of action may be outlined and adopted at the mass-meeting that will put a campaign on foot. There are two plans for securing good roads that are being weighed and considered in the minds of the people. One is the plan to issue bonds to the limit and thus secure a large sum of money for immediate use on the roads. This plan has the advantage of making it possible to do all that can be done on the roads in the shortest possible time. This is an advantage that all admit. At the same time the plan is open to the objection that even though bonds were issued to the maximum the amount of money thus secured would not be sufficient to put all roads in a first-class condition, and there is the very serious danger that it will be so scattered over the county and so frittered away in experiments as to accomplish nothing permanent and leave the county saddled with a bonded debt for years to come. If the county wishes to bond itself it would seem the part of wisdom to issue bonds only for the building of some particular piece of road, within reach of its available means, and according to some demonstrated and ap-

proved plan. But whether this plan would meet with popular approval or whether it will be seriously considered in connection with the proposition to issue bonds at this time the Anvil Herald seriously doubts, although this is evidently the idea in the minds of those contemplating the San Antonio-San Francisco transcontinental roadway. The other plan that is being considered and will be discussed is to levy a special road tax, the proceeds to be a part of the road-fund and to be expended, as is the present road fund, in improving all of the roads where most needed and under the supervision of the Commissioners. This plan has the advantage of providing a tax which can be repealed or voted off at any time it becomes burdensome, and not a debt, as is a bond issue, which must be paid no matter how burdensome or how little value may have been received from its expenditure. It has the further advantage that it precludes the possibility of a loss of a large sum of money in an experiment, such as some counties have experienced with bond issues. But it is open to the very serious objection that the available cash at any one time for road work will be sufficient for a very limited amount of work and it will take several years before our roads can begin to show any marked improve-

ment over their present condition as a result of the tax. To those who want good roads now this is considered enough to condemn the plan. There may be other plans and suggestions but these are the only ones so far brought to the Anvil Herald's attention. The Anvil Herald hopes that out of the multiplicity of counsel the wisest and best plan will be evolved, and at this time will advise only that we make haste slowly in this matter and be sure we are right before we go ahead.

THE sentiment in Hondo is growing in favor of incorporation. There are so many things of a public nature requiring attention that a city government is becoming a necessity. If incorporated under the commission form of government and a business-like administration secured, the cost to the tax payers need not be burdensome and the advantages to accrue from it might be made of incalculable value.

TESTED SCHOOL SHOES

Look Better—Fit Better—Wear Better

"T" and "D" school shoes have become famous for their style, finish and long wearing qualities. Four pairs will outwear five pairs of ordinary shoes made for children's wear.

Many shoemakers yield to the temptation to use substitutes for leather in children's shoes, because of the high price of leather, but we have built up our business by selling honest leather shoes.

Cut up a pair of "Tess and Ted" or any other "Star Brand" shoe and you will find that they have sole-leather heels, soles and counters. No substitutes for leather are ever used. See No. 3130—a new model for boys.

Pure Shoe Legislation is pending in Congress and many states to protect you against fraud. We heavily endorse it. The rights of 100 million children are greater than those of a few hundred manufacturers.

"Tess and Ted" school shoes are made in a hundred different styles for boys and girls of all ages. They are designed to properly fit the foot of growing children.

"Tess and Ted" school shoes and over 700 other styles of "Star Brand" shoes are for sale by 20,000 good merchants. Don't just go into any store and ask for them, but come direct to our store. We are specializing on these famous shoes.

The name on the sole and the "Star" on the heel insures honest values.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

PRACTICAL BAKING LESSONS

FRITTERS AND DOUGHNUTS

I am pleased to submit to you choice recipes for doughnuts and fritters. These few recipes I have selected from my large collection with a view of giving you the most practical, as well as the very best. If they meet with your favor, I am greatly pleased.

Nevada Briggs

German Doughnuts

4 cups flour 1/2 teaspoonful salt
1 egg, beaten light 1 cup sugar
4 level teaspoonfuls K C Baking Powder
1/2 teaspoonful of molasses or nutmeg
2 eggs or 1 egg and 2 additional yolks
Sift together, three times, flour, K C salt and spice. Beat the eggs very light, using the rotary egg beater, then gradually beat in the sugar, making a very light creamy mixture of the egg and sugar; beat in the milk and stir into the flour. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat. Fat for frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.

Potato Doughnuts

Will remain moist for days
3 1/2 cups flour 1/2 teaspoonful salt
1 cup sugar 1/2 teaspoonful molasses
4 level teaspoonfuls K C Baking Powder
1/2 cup milk, or more, if needed
Sift three times, the flour, salt, spice and baking powder. Beat eggs with rotary beater, then still using rotary beater, gradually add sugar, then work in the mashed potato with a spoon and alternately add milk and flour mixture, fry as German Doughnuts.

Apple Fritters

1 cup sifted pastry flour 1/2 teaspoonful salt
1 egg, beaten light 1/2 cup milk
1 level teaspoonful K C Baking Powder
1 level teaspoonful powdered sugar
2 apples, pared and cut in small pieces
Sift together, three times, the flour, baking powder, sugar and salt. Add the milk to the beaten egg and stir in the dry ingredients. Then stir in the bits of apple. Drop batter into hot fat by spoonfuls and let fry until delicately brown, and apple is tender. Drain on soft paper. Serve with powdered sugar or jelly sauce. Bananas, peaches, fresh or canned, and other fruit may be used in the same way.

Jelly Sauce

1/2 cup sugar 1/2 glass jelly
1 tablespoonful flour 1 1/2 cups cold water
1 tablespoonful lemon juice
Mix all together and cook until smooth.

Pineapple Fritters

1 cup flour 1/2 teaspoonful salt
1 egg 1/2 cup milk
1/2 cup chopped or grated pineapple
1 level teaspoonful K C Baking Powder
1 level teaspoonful powdered sugar
Mix as apple fritters and fry in deep fat, serve with Pineapple Sauce.

Copyright 1912 Jacques Mfg. Co.

Pineapple Sauce
1/2 cup sugar 1 level teaspoonful flour
1 level teaspoonful lemon juice
Cook until smooth with pineapple liquid and water, using enough water added to make pineapple liquid to make 1 1/2 cups.

Cheese and Rice Fritters
1 cup boiled rice, grains distinct
2 tablespoonfuls milk or melted butter
1/2 cup grated cheese 1 egg, beaten light
1 level teaspoonful K C Baking Powder
1/2 teaspoonful salt
2 level tablespoonfuls pastry flour
Sift together, three times, the flour, baking powder and salt. To the egg, the rice, butter or milk, cheese and salt the flour mixture. Drop by spoonfuls into hot fat (or frying pan). Let cook until delicate brown color, then turn to cook on other side. Serve with

White Sauce
2 tablespoonfuls rounded of butter
1 tablespoonful rounded of flour
1/2 cup milk
Salt and pepper to taste.
Rub butter and flour together, add milk and cook until smooth.

Helpful Hints
Never let the fat be hot enough to brown before the doughnuts and fritters rise and expand. Often soggy fritters and tough doughnuts are made by having the fat too hot.

K C Baking Powder is especially adapted for doughnuts as one cannot fry at once, and with K C the food can be mixed and stand for hours before cooking. This is an advantage over the old fashioned one-action baking powders, made of tartar and soda or sour milk and soda.

I urge every housekeeper to try a can of K C Baking Powder. The ease with which it can be used is very gratifying. One can mix any amount of batter and cook it as needed. For instance a large amount of biscuits can be mixed and set out ready for the oven and baked as wanted through several hours. This is due to the double action of K C, which also makes it impossible for cakes to fall. Purchase a can of K C and be convinced for yourself just what it will do. Follow the directions carefully and success is sure to follow.

More Than Enough is Too Much.

To maintain health, a poor man, or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control and take a few doses of Chamberlain's Tablets and you will soon be all right again. For sale by W. H. Windrow.

An impediment in the speech may be a blessing in disguise. If some of us stuttered there wouldn't be so much gossip in this world.

Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicine that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by W. H. Hondo High School Classified as a High School of the First Class.

Superintendent Buckner Harris of the Hondo High School this week received the good news that this school has been rated by the State Department of Education as a High School of the first class. This will mean a great deal to our graduates who go to higher institutions of learning and is a splendid testimonial to the efficient scholarship required of those who graduate.

Prof. Harris says that in order to maintain this classification, however, it will be necessary to spend a small sum of money for additional apparatus in the science department, which, of course, will be done.
